08 FEB 2023

To,

1. All Institutions approved by PCI-
2. All the Pharmacy teachers, researchers, and leading pharma industry officials.

Subject: Pharma Anveshan:2023

Sir/Madam,

Pharmacy Council of India is delighted to announce the birth anniversary of Prof. Mahadeva Lal Schroffon 6th March as "National Pharmacy Education Day" to recognize his contribution in establishing Pharmacy Education in India.

Prof. M. L. Schroff is recognized as the Father of Pharmacy Education in India. He certainly remains an ideal to all pharmacists working in the country irrespective of their branches and diversity of duties.

As our Visionary Hon. Prime Minister Shri Narendra Modi Ji already said that global trust earned by the Indian Healthcare Sector has led to India being called the "Pharmacy of the World". Pharmacy Council of India has taken an initiative to create a platform, where academic research and their patents must be recognized globally for their findings and establishing its commercial viability.

Hon. Union Health Minister Mansukh Mandaviyaji has always been instrumental to advocate the vision of innovation for self-reliant India. This platform will promote innovations and start ups at grass root level as "Where convention fails, innovation helps".

In this connection, the Pharmacy Council of India is celebrating Prof. M. L. Shroff's 121st Birth Anniversary as "Pharma Anveshan-2023" on 6th March 2023 at Vigyan Bhawan, New Delhi. The vision of this programme is to provide a platform for sharing academic research with industry and to exchange the benefits of research outcomes between academia and Industry for the benefit of society.

Delegates all across the country are invited for participating in the event, including pharmacy teachers, researchers, and leading pharma industry officials.

This event will help the pharmacy professionals all across the Nation to gain recent insights for the upcoming research in the Post-Covid Era. Moreover, it will provide an opportunity to meet the industry's high priests. The interactive sessions and panel discussions will be helpful for all the participating delegates.

We invite researchers across the country to showcase their research and participate in Pharma Anveshan 2023 so that academic research gets recognized globally for their findings and further establish the commercial viability and welfare of the society.
